

Redwood Empire Chapter

CONSTRUCTION DOCUMENT TECHNOLOGIST

The CDT will put you in an elite group of industry professionals whose expertise is recognized by an industry leader. No matter what you do in construction, the CDT is the program for you! Putting CSI credentials after your name is the industry's proof that you are among the industry's best, and have made a personal commitment to your profession.

“CSI’s Construction Document Technologist Certificate (CDT) helps you to understand how it ties together. You give people the right information.”

Cyndi Silvia, CDT

Why you should obtain CDT certification:

1. Understand and interpret written documents. It will give you a strong foundation when preparing construction documentation.
2. Understand the roles and relationships of all participants.
3. Understanding how a project unfolds from conception to delivery.
4. Improve communication among all members of the construction team.
5. The CDT Credential is a great resume differentiator in a Competitive work force market - *Be special, not ordinary!*
6. Life Time achievement / National Recognition.
